

Voice Recording Script Set

30 single-speaker prompts for a proof-of-concept normal / stressed / distressed audio dataset

Recording note

Each script is written for one speaker. Aim for roughly 3-6 seconds per clip, trim long silences, and keep the vocal state consistent within each take. Record one clean take per script to start.

Normal Class

Use a controlled, professional, steady delivery with no urgency.

Normal 1

Engine 4 to base, radio check complete. I'm moving to the next room now.

Normal 2

Copy that. I have the hose line, and I'm heading down the center hallway.

Normal 3

Air is good. Visibility is fair, and the floor feels stable here.

Normal 4

I found the utility panel. Stand by while I take a closer look.

Normal 5

I'm at the stairwell door. It opens inward, and the path is clear.

Normal 6

We finished the sweep on this side. No victims found in this section.

Normal 7

Water pressure looks steady. I'm repositioning to the left side of the room.

Normal 8

I hear your radio traffic clearly. Repeat the address one more time.

Normal 9

I'm backing out to the landing for a quick equipment check.

Normal 10

This room is clear. I'm moving forward with the rest of the team.

Stressed Class

Use noticeable urgency and tension, but keep speech intelligible and functional.

Stressed 1

I'm losing visibility fast. I need the team to stay tight on me.

Stressed 2

Hold on, I may have taken a wrong turn. Give me that last direction again.

Stressed 3

My air is dropping quicker than expected. I'm pushing back toward the hallway.

Stressed 4

The heat is building in here. I need to move and make this fast.

Stressed 5

I hear something ahead, but I can't tell where it's coming from.

Stressed 6

I'm okay, but this room is getting worse. I need an update right now.

Stressed 7

Watch the floor here. It feels softer than it did a minute ago.

Stressed 8

I'm trying to stay oriented, but I'm getting turned around in this smoke.

Stressed 9

I need a second set of eyes on this. Something doesn't feel right here.

Stressed 10

I'm moving back toward the wall so I can find the doorway again.

Distressed Class

Use strong urgency and strain consistent with an emergency, while still keeping the words understandable.

Distressed 1

Mayday, mayday, I'm disoriented and I need help now.

Distressed 2

I'm low on air and I can't find the exit. I need assistance immediately.

Distressed 3

I'm trapped against debris. I can't move my right side.

Distressed 4

Emergency traffic only. I've lost contact with my team and I need a path out.

Distressed 5

I'm down on the floor. I need someone to reach me right now.

Distressed 6

The heat is too high in here. I need help getting out now.

Distressed 7

I can't see anything, I can't breathe well, and I need immediate assistance.

Distressed 8

Mayday, I'm tangled in something near the doorway. I can't free myself.

Distressed 9

I'm out of position and I've lost the line. Send help to my location now.

Distressed 10

I need help now. I'm trapped, I'm low on air, and I can't get out.
